50X1-HUM

The Stendal-Lorstel (M 53/Y 75) airfield was not occupied by  
and air unit. No reconditioning work or storage was observed.  
the field kasernes were occupied by  
a Soviet Air Force detail of about 30 men. The observation  
towers on the landing field were dismantled.  
An air force sentry was  
posted at the kaserne.

Comment: 50X1-HUM  
50X1-HUM

No changes have occurred at the field since  
February 1950. The air force personnel stationed  
at the field are probably only guarding and maintaining the  
field installations. It is not assumed that an air unit,  
ground or supply unit is stationed at the field.
